

Newsletter February 2016

Welcome to the February edition of the HARMONISE Newsletter. We hope you enjoy our material and look forward to hearing from you via our social media channels – remember to sign up on the links below!

The HARMONISE Project is excited to announce the date and location for our Conference - we will be 'kicking off' Genoa Smart Week with a day devoted to Urban Resilience entitled:

'THE RESILIENT CITY - FUTURE PROOFING OUR URBAN INFRASTRUCTURE'

Stemming from the EU funded project HARMONISE (A Holistic Approach to Resilience and Systematic Actions to Make Large Scale Urban Built Infrastructure Secure), this practice focused event will explore the opportunities and challenges surrounding the resilience of cities and their supporting infrastructure. The symposium will launch a week of related events held as part of **'Genoa Smart Week 2016' taking place from the 23th - 27th May 2016.**

Attendees will learn how innovative resilience thinking and technology can be applied in their city, can share their own ideas with a community of urban decision makers and will gain insights into the approaches adopted by municipal authorities worldwide.

A 'save the date' flyer is attached here: <http://harmonise.eu/wp-content/uploads/2016/02/Save-the-Date-HARMONISE-Final-Event-24th-May.pdf>

The Conference will take place in Genoa on the 24th May 2016. Genoa Smart Week will run from Monday 23rd May (Registration) through to Friday 27th May 2016. Registration is free and will be available later this month - watch this space and our Project Website for further details!!

Get this exciting date in your Diaries and make a plan to attend on the 24th!!

Thanks for reading - see you next month!
